# **OMEGA-3-OIL & OMEGA-3-FAT POWDER**

## OMEGA-3-OIL & OMEGA-3-FAT POWDER

Based on a cold pressed linseed oil from a special variety of linseeds with a high alpha-linolenic-acid (omega-3) > 50 %. This alpha-linolenic acid is essential, cannot be produced by the body itself. Further the omega-3-oil has a long shelf life of 12 months from production, a high stability concerning oxidation and taste and is free of bitter substances.

### KEY APPLICATIONS

- food, nutritional supplements, sports nutrition products
- vegetable alternative for fish oils

By the usage of omega-3-oil in an EasyHealth-fat powder, there's an even bigger range of applications, especially in the field of nutritional supplements and sport nutrition products.

### KEY ADVANTAGES

- linseed oil is one of the most popular oils in the field of nutritional supplements, therefore it has a big market potential
- no bitter taste in relation to a linseed oil. This has an even bigger meaning when applied in food with several ingredients
- longer shelf life than a conventional linseed oil
- perfect for a combination of taste and health benefits

## 3-SEEDS-OMEGA-OIL

3-seeds-omega-oil is a blend of sunflower oil, linseed-oil and rapeseed-oil. It has a mild taste and scent. According to state of scientific knowledge the fatty acid-composition is ideal.

### KEY APPLICATION

- food, nutritional supplements, sports nutrition products
- vegetable alternative for fish oils

### KEY ADVANTAGES

- ideal relation between omega-3, omega-6 and omega-9 fatty acids
- no typical bitter taste of the blended linseed oil
- perfect for a combination of taste and health benefits
